## EDUCATION

### La Salle University

Computer Science, B.A.

University Program: Academic of Discovery Program

Major GPA: 3.28 / 4.00

Philadelphia, PA

*Graduated: Jan 2019*

## TECHNICAL SKILLS

### Languages

Java, JavaScript, AngularJS,  
C, HTML & CSS

### Database

PHP, SQL, MySQL, HeidiSQL,  
MariaDB, phpMyAdmin

### Tools & Platforms

Postman, Git, IntelliJ, Spring,  
Spring Boot, MVC, Jira, Bitbucket

## EXPERIENCE

MarketYou

Las Vegas, NV

### WordPress Assistant Developer

May 2019 – Sep 2019

- Collaborated with Manager on project specifications, strategy and execution to build new WordPress pages and update existing ones.
- Provided timely resolution to reported website problems by integrating new solutions into existing platforms.
- Designed interfaces and graphics for presentations and mobile-delivered applications to enhance content.
- Responded to and corrected issues preventing business or customer use of site or features.

La Salle University

Philadelphia, PA

### Web Developer

May 2018 – Dec 2018

- Collaborated with product team leader and developers to initiate process improvements.
- Developed code collaboratively with Agile team to produce functional application form for student and staffs.
- Investigated and resolved application issues for web-based programs providing end-user support.
- Designed and implemented web components across new and existing designs.
- Developed user interfaces with modern Bootstrap4 framework, JavaScript, HTML5 and CSS3.
- Demonstrated the ability to work with assigned tickets through Jira and Bitbucket console.

## PROJECTS

**MusiQue (Kahoot Alike)**– Self developed an app for users to search, hold, and play songs in a group setting. This is useful for party or karaoke night. The app is built on Java, Angular, Spring, MVC and SQL.

**Shopping List** – Independently developed static website that allows its user to input and remove their items for shopping using JavaScript for function, and Bootstrap 4 for user-experience

**Student4Student (Craigslist Alike)** – Collaborate with team of four to built a responsive web application that allows students to trade with others within the campus, a Register page and a User-to-User message page using JSON, SQL, JavaScript, HTML & CSS
